

Sita van Hasselt

Researcher | Documentary filmmaker

About me

Hi there! I'm Sita, a tech-savvy storyteller who's especially interested in social and climate change related issues. Throughout my experience as a teacher I have seen that there is a big difference between knowing and understanding, and coming from a varied background I hope to contribute by creating a link between the abstract and its human significance, making data a more insightful for everyone. In my spare time I enjoy being outdoors, hiking and climbing or reading a good book. I have experience working in English, Dutch and Spanish and I am currently operating in the Netherlands and Barcelona.

Upon request.

🎓 EDUCATION

2022

Traineeship INto INDustry Program

📍 OTOXO Productions

One year traineeship at OTOXO Productions, an award winning Barcelona based production company focused on social documentary film-making. During this year I acquired a good base in researching, writing, producing, filming and editing and worked on two productions: the tv documentary Bicibús and the short La Subversiva

Bicibús: co-director;

La Subversiva: director and editor

2017-2021

Bachelor Degree Applied Physics

📍 Delft University of Technology

During my studies I was especially interested in calculus and linear algebra, computational sciences and quantum computing.

- Minor in Rhetoric at Leiden University
- Thesis: "Numerical analysis of spin-orbit coupling effects in Ge/SiGe quantum dots."
Supervised by Dr. Ir. Veldhorst at the QuTech research institute and completed with an 8.0/10.

Degree: 7.0/10

📁 WORK EXPERIENCE

2016-today

Teacher/private tutor

Over six years of experience in private tutoring and teaching through various organisations (i.e. DeBijlesstudent, SSL, GoStudent) as well as privately. Focus on beta-sciences including mathematics, physics and chemistry.

2021

Freelance Researcher

Assignment based researcher for 'Testlab Nieuw Bos en Tiny Houses', an initiative from Institute for Social Innovation (IMI). My role was to set-up a project related network and map important legislation.

2021

Bookstore Clerk

Next to my studies I enjoyed working as a store assistant at the Donner, one of the oldest independent bookstores in The Netherlands and a true landmark in Rotterdam.
